

Better information, better decisions.

CBOX™

Features & Benefits

Within CBOX we have standardized a complaint format and designed tools for reporting, tracking and delivery of complaints as mandated by Dodd Frank. Regulators, Lenders, AMCs as well as Appraisers share a single platform to file a complaint with seamless delivery to the appropriate party.

CBOX Summary:

- Complaint Center
- Matrix of common violations in non USPAP language
- Automated reporting to regulators and agencies
- Standardized input and output
- Compliance made simple

We've made a potentially complex regulatory maze a win-win for all stakeholders. We've designed CBOX to be the "easy button" for compliance.
